

## Partners Site Login Instructions

**BBC Partners site URL:** <http://www.bbc.co.uk/partners/english>

You can always find a link to the BBC Partners Site on the [APM Distribution website](#).

**The BBC Partners site is open to all visitors to browse upcoming program information without a login.**

Open access includes:

- The full 24/7 BBC World Service English [schedule](#) (always choose the schedule that has “APM” in the title); current schedules are also available on the [APM Distribution site](#).
- [Program look-ups](#), descriptions and broadcast windows.

### Partner/Station Login:

Logging in to the Partners site gives you access to:

- News rundowns.
- Audio files for broadcast and related media.

To access these additional services, you'll need to use the ‘Partner login’ link to the right of the header (circled in yellow below).

***Only one login is issued per station, so please make sure appropriate staff know your login details.***

This is not an automated process; it's a curated login service managed by BBC staff. If you have trouble with this login, please click the “contact us” link on that login page. BBC tech support will respond as quickly as possible.

***Please disregard the individual login in the upper left corner (circled in blue above).*** This is a standard BBC sign in bar for individual users of the BBC digital ecosystem. It personalizes an individual's use of BBC services, such as BBC iPlayer in the U.K., weather and sports, adding favorites and setting up notifications for other public-facing sites.
